1840 CENSUS - RABUN COUNTY GEORGIA

The 1840 census was the sixth census in the United States and in the State of Georgia. But it was the second one available for the County of Rabun.

As in the 1830 census, only the heads of the household are listed. Also, like the 1830 census, this one lists the inhabitants in age groups from age 0 to age 100, both male and female.

However, the 1840 census had two new features not shown before. The first was the listing of the families according to the area of the county in which they lived. By 1840 the County of Rabun was using the GMD (Georgia Militia District) designations and they were as follows:

GMD 436 - Chechero  
GMD 452 - Warwoman  
GMD 509 - Tallulah  
GMD 556 - Little Tennessee Valley  
GMD 587 - Clayton  
GMD 597 - Tiger  
GMD 636 - Persimmon

The numbers were suppose to have been assigned by the State to the County in the same chronological order that the districts were established. If this were the case then Chechero would have been the first district settled and Persimmon would have been the last. In 1840 the Census Taker followed the same order beginning in the Chechero District and finishing up in the Persimmon District.

The second new feature on the 1840 census was the listing of Veterans of the Revolutionary War. They included:

Edward Williams	Chechero District
John McCune	Tallulah District
John McClain	Tallulah District
John Dillard	Tennessee Valley
Josias Callahan	Clayton District
Jonathan Dunlap	Persimmon District

The Enumerator or Census taker is listed as Elijah Coffee. At the time of the 1840 census there were two men by this name in Rabun. One was between 30 and 40 years of age and lived in the Chechero District. The other was between 50 and 60 and lived in the Little Tennessee Valley. Research in to this family indicates that the one living in Cherchero District was born in S. C. and

was a brother of Edward Coffee, a well known political figure in Rabun County. The one living in the Tennessee Valley was born in N. C. and in other records spelled his name 'Coffey'. Since the Enumerator carried the title of Assistant Marshall and had political implications plus the fact that the Enumerator spelled both names 'Coffee', would favor the younger man as being the enumerator.

14 sheets were used to record the 1840 census. This is the same number required in 1830. However the number of families had decreased since 1830 from 355 to 334. The probable reason was that after the removal of the Cherokee Indians from north-west Georgia in 1836, many people moved west to occupy that territory.

At the end of the census there was the following statement in long hand: "The number of persons within my division consisting of nineteen hundred and ten persons as appear in the foregoing schedule. Suscribed by me this 10th day of October in the year one thousand eight hundred and forty. /s/ Elijah Coffee, Asst. Marshall."

This was followed by a second statement: "We hereby certify that a correct copy of the above schedule signed by the said Elijah Coffee has been set at two of the most public places within the division open to the inspection of all concerned this 10th day of October 1840." /s/ James Bleckley  
/s/ A. R. Gaines

The Enumerator had a fair script and fairly good spelling but because of age and quality of paper and ink, the writer cannot be responsible for errors in names and spelling of names.
